

Remember Me

Words and Music by Abi Moore

Abi Moore: Vocals, Backing Vocals, Acoustic Guitar

Adam Schofield: Acoustic Guitar, Bass

Martin Collins: Drums

Remember me when you're feeling down
When you've lost direction and you can't keep your feet firm on the ground
Think of me when you're feeling low
When you've reached a crossroads and you don't know which way you should go

Remember me when you're feeling lonely
When you're crawling in your skin cos everyone just seems so fake and phoney
Think of me and all that we stood for
Everything we've yet to see and everything we've still got left to live for

CHORUS

Think of me I'm the friend who's always been there for you
Well I'm still here and I'll be there til the end
Don't you know I'm the one who's always stood right by you?
Well I'm still standing and I'll stand until the end

Remember me when you've lost your smile
I'll pick it up for you and put it in your pocket for a while
Don't forget me when you lose your faith
I'll pray for you each night and ask the lord to keep you in his grace

When the darkness pushes out all the light
I'll bring a candle and its flame will keep on burning through the night
Don't forget me when you lose your way
All you gotta do is call my name and I'll be there to carry you all the way

CHORUS

One day in life my friend the meaning will appear
One day we'll understand why God put us here
Do you remember?
All those times we reached the edge and still we pushed so far
Til we stand proud at the gates of heaven shouting "look at where we are"

CHORUS
