

## (Come On) Make Me Happy

Words and Music © Abi Moore (MCPS- PRS)

You look into my eyes to find something beautiful inside  
But then you turn away like you didn't even try  
Cos all you see inside of me is the girl that I pretend to be  
I'm so cold and hard and difficult to love  
But I'm not invincible; my heart is vulnerable  
I guess I'm culpable for building all these walls

But tell me, did you miss something?  
If you try just once again- maybe you could break through them all

### CHORUS

Come on, make me happy  
Half the fun is trying  
Come on and show me what this love thing is all about  
Come on, make me happy  
It's not that hard to do  
Taking a chance on me will be the best thing you ever do

Ice is water if you melt it down, mountains move if you shift the ground  
And if you weren't so blind you'd see that this is how my emotions can be found  
All I need is that melting point, or someone there to rock that joint  
Who's not afraid to love me as I am  
Don't let my love just pass you by cos you think that I'm not the loving kind  
Don't think I couldn't blow your mind, I'll be the best thing you never find

Stand here and look me in the eye like you really want to break the ice  
Push me and shove me til I cry- are you man enough to try?

### CHORUS

#### Bridge

How many people out there today just take their love and they waste it away  
On the first "someone" who comes their way?  
I don't wanna sound unrealistic but I don't wanna be a divorce statistic  
I don't have the time to play these games  
I will wait forever and a day for someone to

### LAST CHORUS

Come on and make me happy, come on and read my mind  
Wrap your wings all around me, turn my water into wine  
Come on and make me happy, it's not that hard to do  
Take a chance on me and I'll take a chance on you.
