You said that I could be your angel
You said that we could fly away
But I don't wanna fly with you no more
You promised me such amazing things
But how far can you fly with broken wings?
And how am I supposed to get back home?

You said the moon would shine its light on me
Open my eyes and set my spirit free
So why have I been waiting here so long?
You said my wings were made of silver sand
That I could calm a storm with the touch of my hand
But maybe you were wrong

CHORUS

Cos its over, its over
It's over and it'll never be the same
I don't wanna fly with you no more
I don't wanna fly with you no more

You said that you would be my hero
That you would catch me when I fall
But I know how to stand up on my own
You said that I would need you here for me
But I've been trying hard to make you see
I just wanna live my life alone

CHORUS

DOUBLE CHORUS

You said that I could be your angel
You said that we could fly away
But I don't wanna fly with you no more
